THE COSMIC GAME — RECYCLING

ENGLISH TRANSLATION · SIX STAGES

The original comic has Slovak speech balloons. Translations are below.

01 · ORIGIN — A NEW WORLD

Something begins. A new game. A new world. Endless possibilities.

02 · GROWTH — DISCOVERY

We play, create and learn. Every brick is an experience. The world grows with us.

03 · CHALLENGES — TRIALS

Storms will come. The world changes. Not everything holds together as we thought. Yet every challenge makes us stronger.

04 · TRANSFORMATION — DEEPER UNDERSTANDING

Order is born from chaos. The old becomes the new. We learn to see connections. Love remains the heart of the game.

05 · FULFILMENT — THE BEAUTY OF THE WHOLE

We see what we have created. We feel grateful. The world is beautiful — just as it is.

06 · RECYCLING — THE COSMIC GAME CONTINUES

The world comes apart, but that is not the end. We take apart the construction, not the experience. The bricks are the same, but the builder is not. I know more. I feel more. I have more possibilities. And so I can build something even more beautiful. The cosmic game never ends. It evolves.

I LOVE, THEREFORE I AM.
